BACKED BY A 5 YEAR FULL PARTS & LABOUR WARRANTY

WHY CHOOSE FUJITSU?

AUSTRALIA'S FAVOURITE AIR®

Fujitsu General is a leading supplier of air conditioners in Australia, with a portfolio to suit both residential and commercial applications.

We focus all of our research and manufacturing strengths into air conditioners which has resulted in our extensive range of world-class and energy efficient air conditioners.

Fujitsu General strives to consistently provide high quality, reliable products accompanied by superior customer service. To be 'Australia's Favourite Air®' means to be the best air conditioning company to deal with in Australia, not just a leading air conditioning brand.

That's why we're proud to say we are 'Australia's Favourite Air®'.

PEACE OF MIND

Fujitsu believe in the quality and reliability of every air conditioner we sell. This is why we're happy to provide a 5 year parts and labour warranty across the entire range.

FUJITSU CHANNEL PARTNER NETWORK

Fujitsu have a comprehensive network of retailers and dealers right across Australia. This ensures that there is a local stockist in your area to assist you in purchasing a Fujitsu air conditioning system for your home.

VOTED BY AUSTRALIANS AS THE 'MOST TRUSTED BRAND - AIR CONDITIONING CATEGORY 2018 & 2019'

Fujitsu is honoured to be voted Reader's Digest Most Trusted Brand in the Air Conditioning category 2 years running.

We understand that our customers are investing in our brand and trusting that we will provide their family with a comfortable living environment all year round.

WHY CHOOSE FUJITSU?

EXCEPTIONAL AFTER SALES SERVICE

At Fujitsu, we pride ourselves on providing exceptional customer service. Fujitsu General Assist is our in-house customer care and technical support department which was implemented to deliver a high level of support and accessibility to our customers.

Fujitsu General Assist deploys factory trained technicians in Sydney, Melbourne, Brisbane, Adelaide and Perth and provides access to dedicated Service Agents in all other parts of Australia. These technicians are well equipped with the necessary tools and spare parts to enable them to resolve issues onsite, promptly. This offers customers a high first time fix rate and seamless experience.

STATE OF THE ART RESEARCH AND DEVELOPMENT

Our state of the art research and development centre, located at our headquarters in Japan, is equipped with numerous testing facilities simulating a variety of air conditioning operating conditions.

PERFORMANCE TESTING UNDERTAKEN INCLUDES:

- Evaluating the units heating and cooling capacity under varied temperature and humidity conditions
- Testing the units air volume and air flow distance
- Measuring units operating noise
- Evaluating units durability to withstand outdoor weather extremes

This rigorous testing is aimed at meeting Fujitsu's high standard of product quality and reliability.

DESIGNER RANGE

WALL MOUNTED

SLEEK, SLIMLINE DESIGN

SLEEK, MODERN FINISH

The Fujitsu General Designer range of wall mounted air conditioning units combine a sleek, modern finish with efficient, intelligent features. With a slimline design, the range blends seamlessly with interiors providing a subtle, yet sleek finish to any home.

EASE OF USE

Every model in the Designer Range comes with a slim and easy to use controller, giving you control of your climate right at your fingertips. With features such as low noise mode, economy operation and weekly program timers, tailoring your comfort needs has never been so easy.

EFFICIENT, INTELLIGENT FEATURES

ENERGY EFFICIENCY

Fujitsu's Designer Range models are one of the most energy efficient air conditioners Fujitsu have designed. With built-in features such as high efficiency DC componentry, high density multi-path heat exchangers, and programmable weekly timers, these air conditioners use less power than ever before.

With some models reaching a 5 star energy rating, year round comfort can be more affordable for you and your family.

ASTG09KUCA

ASTG09KUCA

HUMAN SENSOR CONTROL

All models in the Designer Range contain human sensor control, an intelligent feature which detects the movement of people to deliver optimum efficiency and temperature control. When in operation, if the sensor detects no movement in a room after 20 minutes, the air conditioner will be switched to energy saving operation, modifying the temperature to minimise energy consumption.

Normal operation will resume when motion is redetected.

ECONOMY MODE

The Designer range's economy operation is an energy saving setting that allows the set temperature of the indoor unit to change by 1°C intervals, to allow for a reduction of power drawn by the system. The economy operation can save energy in heating, cooling or dry mode and is easily activated via a remote control.

FEATURES*

COMFORT FUNCTIONS

10° C HEAT OPERATION

The room temperature can be set to go no lower than 10°C, ensuring that the room does not get too cold when not occupied.

UP / DOWN SWING LOUVRE

The up / down louvre automatically swings up and down.

AUTOMATIC LOUVRE

The position of the louvres is set automatically to match the operating mode. It is also possible to adjust the louvres using the remote control.

AUTO SHUT LOUVRE

The auto shut louvres close or open automatically when the unit stops or starts.

AUTOMATIC AIR FLOW ADJUSTMENT

When auto mode is selected for the fan, the micro-processor adjusts the airflow to follow changes in room temperature.

AUTO RESTART

Should there be temporary loss of power, the unit will automatically restart itself in the same operating mode, once the power is restored.

AUTO-CHANGEOVER

The unit automatically switches between heating and cooling modes based on the temperature setting and room temperature.

POWERFUL MODE

This mode will operate the air conditioner at maximum capacity for 20 minutes, providing comfort faster than ever before.

CONVENIENCE FUNCTIONS

SLEEP TIMER

The micro-processor gradually changes the room temperature, allowing you to sleep comfortably at night.

PROGRAM TIMER

This timer allows selection of one of four options; ON, OFF, ON → OFF, or OFF → ON.

FILTER SIGN

Select appropriate intervals for displaying the filter sign on the indoor unit according to the estimated amount of dust in the air of the room.

ON-OFF TIMER

ON-OFF timer can be set to operate once every 24 hours.

WEEKLY TIMER

Different ON-OFF times can be set for up to 7 days.

WEEKLY + SETBACK TIMER[^]

Weekly + Setback timer can set temperature for two time spans and for each day of the week.

LOW NOISE MODE

The compressor speed and the outdoor unit fan speed are limited to reduce the operational noise.

SUPER QUIET MODE

The indoor units fan can operate at a low speed to produce quieter operation.

*Note: not all features available on all models, please refer to features checklist on page 8 [^]UTY-RVNYN is required

ENERGY EFFICIENT FUNCTIONS CLEAN FUNCTIONS

HUMAN SENSOR

The sensor detects the movement of people in the room. The unit can be set into either an auto saving or an auto off mode to help save energy.

DEMAND RESPONSE

This product is designed to be compatible with Air Conditioning Demand Response program. When your electricity supplier activates one of the three modes, the air conditioner switches over to the appropriate operation.

ECONOMY MODE

The economy operation will save energy in heating, cooling and dry mode. Economy operation is set by pressing the button on the remote control.

V-PAM

V-PAM inverter technology increases the maximum output of the compressor significantly and enables high power and high efficiency.

i-PAM

i-PAM inverter technology enables high output and high efficiency performance.

WASHABLE PANEL

Dust which accumulates on the air conditioner can be easily cleaned with a damp cloth.

APPLE-CATECHIN FILTER

Fine dust, invisible mould spores and harmful microorganisms are absorbed onto the filter by static electricity and further growth is inhibited and deactivated by the polyphenol ingredient extracted from apples.

LONG-LIFE ION DEODORISATION FILTER

The filter deodorises by powerfully decomposing absorbed odours using the oxidising and reducing effects of ion generated by the ultra-fine-particle ceramic.

FUJITSU - COMMUNITY

SPORTING CHANCE

Fujitsu General Australia is extremely proud to be a major sponsor of the Sporting Chance Cancer Foundation.

Established in 1996 by a number of high profile Australian sports men and women, including Fujitsu Generals' longstanding ambassador Mark Taylor, Sporting Chance is a not-for-profit organisation that helps provide home support and care to children with cancer.

To date, Fujitsu General has donated more than \$8.5M to this worthy cause, with a percentage of sales from Fujitsu's air conditioning units going towards the funding of outreach programs and exploring better ways to treat and overcome cancer.

This support has enabled the Sporting Chance Cancer Foundation to fund nurses across Australia allowing children to receive improved cancer care closer to home. This funding also allows for remote treatment and care for families, and considerably reduces the time spent travelling to and from the nearest hospital, which could be thousands of kilometres from home.

Sporting Chance initiatives allow families to spend more quality time at home together, while still having access to the appropriate care for their child.

Fujitsu General is dedicated to the ongoing support of the Sporting Chance Cancer Foundation and its commitment to improving the cancer care available for children, as well as research and new treatment developments.

FUJITSU

AUSTRALIA'S FAVOURITE AIR®

“

If you are looking for an air conditioner that you can trust to keep you comfortable all year round, my advice is to look no further than a Fujitsu.

They are efficient, effective, and beautifully designed, I should know, I bought one myself.

So for an air conditioner you can trust, go with the name you know, **Fujitsu, It's Australia's Favourite Air®.**

Mark Taylor
